No.100

### Proposal to extend Airport Development Area

Notice is hereby given that the Governor in Council proposes to make an Order under section 4 of the Airport Development Ordinance, 2008, to vary the Airport Development Area Order.

The original source for the provision of water for airport operations, as well as a contributory source for airport construction, has been revisited and it is proposed to install an above ground water supply line across two parcels of land in the Fishers Valley area, not included in the original Airport Development Area.

Parcel No's 38 and 123 of the Longwood South Registration Section are proposed as an extension to the Airport Development Area. Both parcels are crown land, with no private rights affecting them.

A plan showing the location of the parcels can be inspected in the Access Office, The Castle, during normal office hours.

Members of the public may submit comments or objections to the undersigned within 28 days from the date of this notice.

Dated this 30<sup>th</sup> day of September, 2011.
